

Lyrics to the Animatics Planets Song

It's time to tour the planets that make up our solar system - come on!

The closest to the sun is the planet Mercury

Next the shrouded planet Venus
Is as covered as can be

The Earth is next, we call it home
Let's hope it stays that way

And then there's Mars, it's really red
What more can I say?

The Gassy planet Jupiter's
As big as planets come

Then there's Saturn with its mighty rings,
Made up of tiny crumbs

We travel on to Neptune
That's a gassy-freezy ball

And cold and tiny Pluto
It's the furthest one of all

Well, there you go, that's our solar system
-You forgot Uranus
Goodnight everybody!
